He said a barn on his farm in which he had just stored thirty-three loads of new hay, was struck by lightning last Friday and destroyed. Gov. Hyde has appointed Elwin R. Robinson as county treasurer of this county, to succeed the latter's father, the late N. F. Robinson, until the vacancy can be filled by election in November. The county court was in session Monday to approve the bond of the new incumbent of the office and transfer the county's funds over to him.

With nothing going on in Potosi in the way of a celebration on the glorious Fourth, the town was largely deserted on that occasion. Never was there a finer summer day for outdoor diversion, and all who had their gas bugles tied themselves to the road, incidentally contributing handsomely to old John D.'s meagre fortune. The picnic at Old Mines drew quite a number of our people. Others drifted to De Soto, Bonne Terre and other points.

The will of the late Norman F. Robinson, county treasurer of Potosi, was filed for probate last Thursday. After leaving his children each one dollar in cash, the testator left all his property, real and personal to his wife, to go to his children in equal shares at her death; but since Mrs. Robinson had preceded her husband in death, the children enter into their inheritance at once. The estate consists principally of some real estate in Harmony Township and \$3,000 life insurance—\$2,000 in the Modern Woodmen and \$1,000 in the A. O. U. W. Elwin B. Robinson was appointed administrator. The will was made in March, 1919.

To All Republican Voters of the Second Judicial District:

Realizing that I shall not be able to see you all personally in connection with my candidacy for the Republican nomination for Judge of the County Court from the Second district, and directly solicit the favor of your support at the August primary election, I take this means and opportunity of briefly addressing you on the subject.

I was persuaded to become a candidate for re-election to this office by many of the best financiers of the county. I realize that it is such men themselves that we should have on the county court bench that the fiscal affairs of the county might have the benefit of their talent, but the small salary of the position makes this impossible apparently. It is, however, most gratifying to me that these men have considered my services on the bench during the term I am now serving as worthy of their approval and continued confidence in me.

On this basis I am asking your fair consideration of my candidacy, and should I be renominated and elected, I pledge myself to continue serving the people of the county with loyalty and to the best of my ability. Soliciting your support and influence, I beg to remain
Very respectfully,
W. I. BAYS.

MEXICO PICKING UP
Remarkable Progress Being Made in Overcoming Illiteracy.
Night Schools in Capital Have Taught Many Persons to Read and Write—Laboring Class is Deeply Interested.
Mexico City.—Remarkable progress is being made in overcoming illiteracy in the capital, according to information obtained from the department of public education of the federal government.
During the first three months of the present year approximately 15,000 persons of the lower class were taught to read and write. This educational work is being carried on largely by means of night schools, which are of themselves something of a novelty in Mexico.
It is stated that interest on the part of the laboring class in this educational work is unbounded. They crowd the schools to full capacity and there are hundreds who cannot as yet be taken care of on account of the lack of teachers and other facilities. Men and women of middle age vie with sandal-footed youths to obtain enough instruction to enable them to read and write. In one of the larger schools there is an average attendance of 800 persons.
The teaching of the fundamentals, which is being done in the schools, is supplemented by a series of educational lectures that are given in moving picture theaters on Sundays. So successful has been this plan of teaching the lowly natives the rudiments of reading and writing in this city that the department of public education plans to extend the work to all of the larger cities and many of the smaller communities of the country.
President Alvaro Obregon has shown a keen interest in this new phase of education and has pledged to provide the necessary financial means for carrying it forward.

STUNG BY BEE, DIES IN HOUR

Apoplexy Following Shock Kills New Jersey Farmer Afflicted With Weak Heart.

Caldwell, N. J.—Stung on the right temple by a honey bee Harry Collier, a farmer living four miles from here, died half an hour later. After returning from town, where several of his friends remarked that he seemed in perfect health, Mr. Collier began chopping wood. A few minutes later he hurried to the house, telling his wife that he had been stung by a bee.

Mrs. Collier discovered the stinger and extracted it. As her husband's pain seemed to increase she set out for the nearest house to telephone for a physician while his sister, Miss Matilda Collier, applied first aid.

The sick man's neck began to swell. He soon lapsed into unconsciousness and died before a physician arrived. Coroner Thomas J. Lewis said death was due to a stroke of apoplexy caused by the shock of the insect's sting and a weak heart.
